Why choose Gendered Intelligence?

**Experienced**
GI has trained over 12,000 people and delivered over 600 sessions.

We also trained the entire staff of Stonewall across England, Scotland and Wales in support of Stonewall’s move to become trans inclusive.

**Professional**
All our trainers are professional trainers/facilitators who are also trans and/or non-binary identified: many have extensive grassroots trans-community backgrounds and additional specialisms. Having (or acquiring) a training qualification is a requirement for our team and forms part of our programme to ensure the consistency and quality of our service. Whilst our staff have lived experience, the sessions focus on understanding the diversity of trans people, and deliver far more than a single person’s perspective, enabling your organisation to engage with trans people with confidence.

**Expert**
Our consultancy and training teams overlap, meaning we have a diverse portfolio of strengths to call on. Our trainer/consultants use their facilitation skills to good effect in 1:1 and small group discursive settings, focus groups and similar; whilst policy, guidance and other written materials are developed or reviewed by consultants who specialise in clear written English. Queries and issues arising within consultancy work benefit from the wide range of knowledge and perspectives across the whole of GI.

**Added value**
The breadth of GI’s work and experience ensures we are able to bring cross-sectoral ideas and understandings to all our professional services. Our support will help your organisation establish the understandings and approaches that will be needed for the future and to become confident around trans inclusion. In addition, for organisations keen to meet their corporate social responsibility goals, our investment in the wider trans community, means that by choosing GI to deliver your training, you are contributing towards our vision of a world where diverse gender expressions are visible and valued, and the quality of trans people’s lives is improved.

**Excellence**
For the last three years we have received consistent feedback, with delegates from our most popular session giving our training a consistent score of 4.8 (out of 5) for usefulness, and reporting increases in their understanding, knowledge and confidence as shown to the right (based on a 94% response rate from over 3000 delegates).

The delivery team is supported by a professional administrator so that all aspects of each contract, both pre- and post-delivery, are accurately and reliably handled.
Training and Presentations

Gendered Intelligence offers a range of sessions from one hour to two days and beyond. As with all our services, our training is flexible and if our standard options don’t meet your needs, we can tailor sessions to suit. Below are some popular examples.

**Introduction to Trans Awareness**

This is our most popular course, and a good place to start with the key staff who need to have an understanding of trans people. This half day (3.5 hour) introductory interactive session for up to 15 people gives enough time for discussion and questions around the key topics in a relatively short period of time.

In this session we:

- Set the wider context for trans identities - how sex, gender and sexual orientation interact
- Explore key terms and uses of language
- Offer basic grounding in the legislation covering the rights and responsibilities around trans identities; including the Equality Act 2010
- Explore how your environment can be trans-inclusive
- Provide links to a wide range of resources
- This session includes interactive exercises: we aim to make scenarios relevant to your field of work, so if there are specific issues you want to cover, we will do our best to include them within this standard package.

The training package includes a booklet and attendance certificate for each delegate as well as an extensive pdf resource list and a summarised evaluation for your HR records.

**Introduction to Trans Awareness** is also run regularly as an open course in London. This is a good option if you only want to train one or two people, or if you would like to experience the standard session before bringing a session in-house. Details, dates and the booking form are on the GI website.

**Trans Awareness: The Basics**

If you have more limited time for staff training, or want a brief introduction for the wider staff body, then this 90 minute option is a good choice.

The session comprises roughly 1 hour of presentational content with 30 minutes Q&A time, and touches on broadly the same themes as the half day, but in less depth.

It sits well in the context of a diversity day or similar, and we can deliver it to 100+ people. If you have chosen the half day session for a small team, then the Basics session can complement it across the rest of your organisation. This session includes a pdf resource list that can be circulated to delegates as well as a summarised evaluation for your HR records.

“Very helpful. Informal and comfortable session with engaged conversations and reassuring advice. Brilliant!”

Lee Hyett-Powell, Quality, Governance and Assurance Manager, London Ambulance Service

“The trainer was exceptionally knowledgeable, approachable and humorous. I…will be making organisational changes, which are so easy to make and may have a large impact on people in the future. Thank you!”

Susan Venton, Vice President, Moody’s Investors Service
Trans Awareness and Inclusion

Our full day (6 hour) sessions typically include the content of “Introduction to Trans Awareness” as a core, and we build on this according to your specific interests and needs. This can include additional content (such as international perspectives, medical pathways, or sport specific considerations), more depth, more worked examples, more Q&A time, action planning or anything else that will deliver the learning and outcomes you are looking for.

Understanding Gender Identity: Trans People in the Workplace

Gendered Intelligence has partnered with the Open University to offer a 2 hour online course on the OU’s FutureLearn platform. Based on GI’s Trans Awareness: The Basics, and benefitting from the OU’s online distance learning capabilities, this enables organisations to offer basic training more flexibly. It’s good for large numbers, geographically dispersed workforces, and ‘catch-up’ provision for new starters and those unable to attend a session in person.

Working Alongside Trans, Gender Diverse and Questioning People

As well as the above more general courses, we also offer a specialist two-day course for Counsellors and Therapists.

This course has been created in response to demand for more in-depth and specialist learning from therapists and counsellors themselves, and to the need of the wider trans community for a pool of trans-knowledgeable therapists and counsellors to draw on.

The training is a mix of formal presentations, interactive exercises and reflective discussions delivered in a small group learning environment (maximum group size 18 people) by two professional trainers who combine extensive therapeutic and trans-specific knowledge and practice.

The course is available both as an open course for individuals at city locations across England, and as an in-house course delivered at your premises.

Full details of this specialist course and of the associated Network for ongoing support and learning are on our website.

“Excellent session, and I feel so much better informed as a result. In particular, I feel far more confident in asking the questions necessary to ensure trans colleagues or clients receive equal service.”

Lowri Williams, Head of HR, Welsh Assembly

“I loved all of it, especially the variety of activities. Great pace, space to debrief and lots of individual activities to help process and reflect. [Day 2] was so hands on and useful, especially the role play and explaining theories of gender. This was such a strong course with fabulous trainers. Wish it was 3 days! :-()
